

Roger Perez

Roger Perez is the Executive Director at the Kern County Museum with over 25 years of experience in marketing, production, design and management. Roger Perez received his degree in Communication/Rhetoric from the University of Pittsburgh. He has extensive experience "behind the camera", creating marketing and public affairs campaigns for the public and private sector on both sides of the country.

Roger is an accomplished writer, videographer, and editor, logging thousands of hours behind the lens, in front of a computer and in an edit bay. Mr. Perez is a proven team leader and strategic planner - bringing those skills to the Kern County Museum to usher in a new era of development and growth for one of Kern County's most honored institutions. Formally the Director of Marketing for North of the River Recreation and Park District and a Creative Services Director for ABC and CBS affiliates in Pittsburgh and Bakersfield, Roger currently uses his marketing background and leadership skills to help develop a new and exciting future of growth and innovation for the Kern County Museum. Roger is married to Kimberly, a Kindergarten teacher with the Bakersfield City School District and has two boys ages 6 and 10. A lot of his time is spent enjoying the kid's activities in sports and church. He loves to read and spend time taking photographs of the interesting people and places in Kern County. He also tries never to pass up a good barbeque with friends or a nice craft beer!

Mr. Perez will be speaking about the Museum itself, giving a brief history of the facility and its inception. The audience will take a look at the large and wonderful collection that the museum houses and how it is so much more than just "Pioneer Village". He will also be discussing the different structures that the museum has had in its leadership over the years and how that impacts the current management of the museum. Finally, Mr. Perez will be sharing some of the current projects under development at the museum and some of the things they are doing to strengthen the membership and volunteer programs as well.

Topic: The Kern County Museum

General Meeting

Tuesday, August 19, 2014

Guest Speaker:

Roger Perez
Executive Director
Kern County Museum

Technical Session:

Bob Smith
Western Region Sales Manager
PECOFacet Filtration Products

Location:

Bakersfield Petroleum Club
5060 California Ave. 12th Floor
Bakersfield, CA

Schedule:

Social Hour: 6:00PM
Tech. Session: 6:30PM
Dinner: 7:00PM
Speaker: 8:00PM

Price: \$25.00

August Social Hour Sponsor:

Bob Moore
Bob Moore & Associates

David
Kingston Jr.
is our
youngest
API
Member.
Dad, David

Kingston is the Sales Manager for Precision Pump & Machine and Mom, Desiree Kingston is a local teacher.

Technical Speaker Topic: Ultra Low NOx Burner Protection

Bob Smith

Bob graduated from Pennsylvania State University in 1991 with a degree in Petroleum & Natural Gas Engineering. He has lived and worked in Bakersfield, California, as a summer-hire roustabout and then engineer for Mobil Oil for two summers. Bob has been working in the California Oil & Gas industry continuously since 1998 as either a manufacturer's representative or manufacturer sales person. He is currently the Western Region Sales Manager for PECOFacet Filtration Products, with his office in

Lakewood, California. He also been fortunate enough to be married to his college sweetheart for twenty one years and counting. In his free time, Bob enjoys DIY projects at home (what he calls dirt therapy), cooking, and laughing at the antics of his pets. The presentation will review the current API RP 535 recommendation for filtration upstream of Ultra Low NOx burners and then the physical and financial effects of burner tip fouling via liquids and solids. In addition, it will also review current preventative measures that fall within the API recommendation and lessen the financial impact of maintenance costs and potential emissions fines.

General Meeting Reservations:

We have increased our attendance immensely at the API Dinner Meetings. **In order to guarantee your seat and dinner choice (steak, chicken, salmon, or vegetarian) for the meeting, please send in your RSVP to Terra Gaines at (661) 340-8932 or terra@gainesrecruiting.com no later than 4:00 PM on Monday, August 18th.** It is important that we have our head count and food selections turned in to the Petroleum Club the day before the event so the appropriate amount of tables and seating are setup in advance to accommodate the crowd. Your timely response is appreciated.

API Website:

Need to pay for your membership? Visit the API website at www.apibakersfield.org. Start paying the easy way with API's PayPal buttons! If you wish to become an API Newsletter sponsor, please contact the Newsletter Editor, Jorge Haiek by e-mail at jghaiek@aeraenergy.com. Please list "Newsletter Sponsor" in the subject line.

Technical Speaker Sponsors:

This month's Technical Session is sponsored by Bob Moore from Bob Moore & Associates. Thank you to Bob for his generosity. There will be a drawing held for those who come and actively participate in this learning and knowledge sharing event.

Super Prize Raffle:

We've got another fabulous SUPER Prize valued at over \$200 courtesy of Bob Moore from Bob Moore & Associates. A BIG thank you to Bob for all he does. Proceeds from the August Super Raffle will be donated to the API Scholarship Fund. The July 2014 meeting raised **\$1,669** for the API Scholarship Fund. Bring a few bucks to the July meeting and you could be our next winner.

API Facebook Page

Visit the API Facebook page at facebook.com/APIBakersfield to view upcoming events and photos from past events. To submit photos from API events, please send an email to Social Media Chair Christina Lancioni: christina.lencioni@gmail.com

San Joaquin Valley
Chapter

API NETWORKING SOCIAL

When: Thursday, August 14th from 5:30 to 8:00

Where: Shamrock's Irish Pub, 4715 Coffee Road

Sponsored by:

Come mix and mingle with other industry professionals at the API networking social. Hors d'oeuvres will be provided and non-members are welcome.

RSVP with terra@gainesrecruiting.com to be included in the door prize drawing. We hope to see you there!

The SJV Chapter of API meets the third Tuesday of each month at the Petroleum Club. Our next general meeting is scheduled for August 19th. Additional details are on our website, www.apibakersfield.org. Mark your calendar and RSVP with jgrassi@chevron.com.

**HSC is proud to announce
the opening of our High
Pressure Iron Testing and
Recertification Facility
for our Bakersfield Branch.**

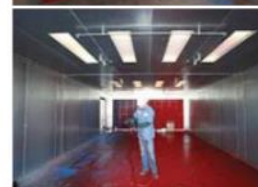

HSC has industry certified technicians to serve all of your equipment needs to ensure that your equipment is safe and free of washout and corrosion.

INSPECTIONS INCLUDE

1. **VISUAL INSPECTION** - Looking for wash out and corrosion that's identifiable to the naked eye.
2. **ULTRA SONIC THICKNESS TEST** - A gauging process used to identify thickness of metal.
3. **MAGNETIC PARTICLE INSPECTION** - An inspection using magnetic particles to identify cracks and discontinuities in metal.
4. **HYDROSTATIC TESTING** - Pressure test using air and water.

Plug valves - ball valves - swivel joints - pup joints
fittings - vessels - temporary piping - manifolds - flanges
welds - down hole tools - pumps

Chlorine Dioxide Enhances Produced Water Quality

Chlorine dioxide is one of many microbiological control options for treating produced water in the oil and gas industry. The use of chlorine dioxide is well established through years of safe use in various industrial applications which include:

- Control of microbial growth in the oil field produced water systems- Chlorine dioxide is able to penetrate biofilm and kill microorganisms
- Reduction of interface growth in oil/water separation equipment and a reduction of microbiologically induced corrosion
- Reduction of particulate formation in water injection systems

Seaco can demonstrate how chlorine dioxide can work in your water handling systems and help to reduce your cost of operation.

Allow us to show you how today at 1-661-323-5115.

300% Increase in Downhole Pump Run Life

A recent Six Sigma Study shows 300% increase in downhole pump run life.

Watch this 2 minute video comparing a downhole pump with a conventional plunger vs. a FARR plunger, [Click here](#). You will be amazed.

By making one small change in your downhole pumps, you will experience:

1. Reduce rig count on lease.
2. Reduce personnel and vehicles on lease.
3. **Reduce Health & Safety incidents.**
4. Reduce Exposure to Environmental Spill Incidents.
5. Reduce Operating Expenses and Save your company Money.

You don't even have to change your pump shop or pump supplier, just request a FARR Plunger in your next pump.

Muth Pump has been in business for more than 15 years and we have more than 15,000 FARR Plungers in wells in 17 states in the USA and in 10 different countries. It is proven technology that works.

Please visit our website www.muthpump.com or give us a call for more information.

"By FARR, We Make Your Rod Pumps The Best In The Industry!"
